BRODHEAD.

J. G. Frith is having his store room and hotel building repaired.

Robt. Hicks is preparing to build a new residence near entrance to fair grounds.

The L. & N. is improving the looks of things by putting a coat of paint on water tank and pump house.

Mrs. Smith, wife of T. H. Smith, president of Beaumont College, Ilion, visited Mrs. J. W. Hutchison first of week. Mrs. Smith was here in interest of the college.

The Baptist church building is being treated to a new coat of paint. Bradford Albright is doing the work. Some white washing on the fence and some weeds and briars cut away would add to the looks of things.

The Rockcastle Baptist Association meets here on Sept. 7, continuing three days. The first day will be devoted to Sunday school work alone and all Sunday schools in the bounds of the association are invited to be represented in some way, notwithstanding the convention will be under the auspices of the Baptist church.

One of the features of the fair will be a speech on the second day by Col. R. G. Williams who is a candidate for Commonwealth's attorney of the Kenton county district. His subject will be "Labor's New Duty." It is useless to say who Mr. Williams is, for most of the readers know of Dick Williams, son of D. N. Williams, of Mt. Vernon.

J. R. Tuttle, of London, was here first of week on business. Misses Lillie and Annie Albright, of Barbourville, visited Mrs. Mary Albright. Miss Elizabeth Carter of Gratz, is with her brother, Dr. W. F. Carter, this week. Mr. Jones Brown, of Lee Lick, was here Monday doing some surveying. Mrs. Wilt McKinney, of the Freedom section, is very low with typhoid fever. Mr. Roy Mink, of Moreland, is visiting his cousin, Mrs. W. F. Carter.

While the country furnishes good farmers and good neighbors the towns also contain some of the best of citizens. We do not wish to flatter any one by our eulogies, we are simply hurling at them bouquets while they live instead of waiting until they are dead and then putting them upon their graves. Should you come to the Brodhead fair don't fail to visit the place of business and shake hands with the senior partner, Mr. A. E. Albright, of the firm of Albright & Adams. "Ed," as we call him, is 38 years of age, was born near Lee Lick, where he lived until 17 years old, then came to this place and clerked in the store of his brother, J. H. Albright, until about 25 years of age, when he began business for himself. When 22 years of age he married Miss Dollie, daughter of Mr. and Mrs. O. W. Turpin. Mr. Turpin claims the distinction of being a rebel soldier while Mrs. Turpin is a daughter of Rev. J. J. Edwards, whose name appears so often in Kentucky history. Ed owns one among the nicest residences in town and takes a delight in keeping every thing looking cozy. He has four children, all girls; Miss Lena, the eldest, who acts as organist at the Baptist church occasionally. Misses Hazel, Nina and Augusta Worth are the other three. Mr. Albright takes a great interest in the affairs of the town, always keeping an eye for the betterment of things. He is a great Sunday school worker, a staunch member of the Baptist church, also a deacon and has done a great deal towards the erection and completion of the new Baptist church building here. As to politics he is a democrat and is a subscriber to this paper.

One dollar bottle and part of the second cured me entirely. It will cure you. Sold by New Stanford Drug Co.

Richard Golden, the famous old comedian, is dead in New York City.

Murphy and Acton Come Back.

KINGS MOUNTAIN, Aug. 9.—In a letter to the INTERIOR JOURNAL of Aug. 6, W. F. Lane, M. B. Smith and Morris Wall misstated some known facts, viz:

At a meeting on the last day of May or the 1st day of June, Dr. Acton stated in open meeting—all members present—that the tax had to be levied in the month of June. At a meeting on the night of July 14, all members being present, with the district treasurer, Maurice Singleton, Dr. Acton stated what he told them about levying the tax in June. Mr. Lane said he knew Dr. Acton said something about it but he paid no attention to it. Murphy went to Morris Wall about the tax so that Wall would bring it up at the meeting, from the simple fact that if either Murphy or Acton brought the question up the other three would be against it, as they had practically been against everything either of the other two stood for. They say they had no school law and failed to get one and had to depend on the retiring president and secretary for information. This is incorrect, as there was a copy of the school law in the postoffice sometime before they were elected trustees and we saw them studying same. Also all through the month of June Morris Wall was seen with the school law in his shop reading it at various times. When they say they were not warned of the time to levy the tax, and at least three weeks before the time was out, they misrepresent facts; therefore we claim we were not in the least to blame for the tax not being levied. J. W. ACTON.

M. G. MURPHY.

The full appropriation committee of the House will take a junket to Panama to see the canal in November. As Congress has authorized the issue of \$375,000,000 in bonds for the digging of the ditch, the reason of the visit now is not apparent, except for the purpose of enjoying an outing at the expense of the country. The original estimate of the cost of the canal was \$140,000,000 and Harper's Weekly, after a personal investigation of one of its emissaries says it will cost a billion before it is through. The issue of bonds is, however, said to be only an excuse for the purpose of replenishing the treasury, which sadly needs the money. Harper's gives this reason: "Eight years under Cleveland cost the country \$2,519,524,867; eight years under Roosevelt, \$4,627,855,388, a difference of more than two billion dollars. The army and navy under Cleveland, cost \$551,559,383; under Roosevelt, \$1,751,426,471, a difference of nearly a billion and a quarter. And 15 years hence not a single battle ship now afloat will be fit to go into action. How long, Oh Lord, how long before we shall return to an economically administered government and a tariff for revenue only."

REPORT comes from Lexington that Mr. W. P. Walton has bought the Gazette, a democratic afternoon daily of that city. As he is en route with his family to Atlantic City we could not corroborate the report, but on the principle that it is hard to teach an old dog new tricks and knowing his fondness for the business he has followed for nearly a third of a century, we incline to the belief that the report is true. Printers' ink is monstrous hard to wash off one's hands either really or figuratively.

As he regards Kentucky as debatable political ground, President Taft has decided that all the census employees in Kentucky must be republicans. But William the First ought to know, if not these presents are to inform him, that republican incompetency at Frankfort has taken Kentucky out of the doubtful territory and placed her on the firm foundation of a democratic State.

A JUDGE has decided that the Bristol, Va., "drys" have no cause of action and that the city must submit to the will of the majority and be "wet." The drys will hardly let a subordinate judge settle the matter for them, but take further steps before a higher court to prevent the reintroduction of the saloon.

ABRAHAM LINCOLN, whose name is now revered even by his enemies, managed to make buckle and tongue meet on \$25,000 a year. Mr. Taft now gets that much for traveling expenses and wants even more with a salary double that of the great emancipator.

SENATOR BRADLEY is back in Louisville and told a reporter that "he was going to practice law like the devil" till Congress reconvenes. A great many lawyers practice that way but we had not thought the Senator was in that class.

The president and all his Cabinet are away from the capital, but "God reigns and the government at Washington still lives."

THE automobile display and performances at the Lexington fair were all that the most fastidious lover of the machine could have hoped, but as Senator Bailey, of Texas, who was in the city, remarked: "It is a most incongruous thing to have such exhibitions at an agricultural fair in a section that should encourage horse raising. When you buy a horse from a farmer or breeder, he not only gets your money, but continues to get it in the sale of feed for the animal. Every turn of the crank in an automobile destroys a quantity of gasoline and every ounce of that product of the Standard Oil Company disposed of enriches that grasping monopoly." There is food for thought in the suggestion.

EDITORS HOWELL, of the Atlanta Constitution, and Gray, of the Journal, of the same city, fell out over the merits of Hoke Smith's administration, and having run out of epithets applied to each other, have quit the unseemly quarrel from sheer exhaustion. Both are good men and useful to their thriving city, but such exhibitions as they have been making of themselves injure their power for good, and weakens their influence among thinking people. If editors want to quarrel let them go out in the woodshed and fight it out fist and skull if necessary.

SOKE head democrats and republicans are trying to get together at Lexington for an independent county ticket, but so far have not been able to agree on a division. A committee was appointed to urge Judge Parker to announce his candidacy to succeed himself and run at the head of an independent ticket, but he has so far kept his own counsel. It is hoped that he will tell his flatterers to "get behind me Satan," and thus retain a lingering respect of his former admirers.

NIGHT riders are again posting notices containing dire threats to the owners of Reelfoot Lake in Tennessee. This comes from the fact that the Supreme court of the State rushed in and saved the necks of the convicted slayers of Capt. Rankin on the merest technicality. Often the courts are the greatest producers of crime.

THE government statisticians estimate the five crops of wheat, corn, oats, rye and barley in the United States this year to be worth \$3,102,100,400. The entire output of gold and silver is but \$614,651,300. Great is the farmer and glorious are his prospects. And he deserves all the good that can come to him.

AUDITOR JAMES reports that there is a deficiency of \$353,017.93 in the general expenditure fund. This is going some considering that when he took charge there were about \$1,400,000 in the treasury and the republican administration is not half gone. May the good Lord help us.

A NEGRO was lynched near Cadiz Tuesday for attempted criminal assault, close by the place that another brute was hanged a short time ago. These drastic examples seem to have little effect on the lecherous fiends, who continue to get in their beastly work.

It is now said that the plums for Kentucky patriots will not be handed out till after Mr. Taft's 13,000 mile tour. Suppose he should be killed and Sherman should accede to the throne, wouldn't there be a new deal all around? Perish the thought. It is harrowing.

THE government places the wheat yield at 725,000,000 bushels, which is but 23,000,000 bushels short of the record crop in 1901. With this big supply there is not much danger of anybody starving and not much reason for putting the price of flour so high.

WHO said the republican Congress is unmindful of the great common people? Didn't it reduce the tariff on porous plasters? In order to catch even, however, the manufacturers, will, it is said, enlarge the size and number of the holes in the plasters.

THERE seems to be developing a mutual admiration society between Miss Alice Lloyd and the State Journal. A fellow feeling usually makes us wonder kind and both hate Congressman Cantrill with a holy hatred, and both with good reason.

THE governor of Alabama has signed the bill to prohibit the sale of any liquor in the State containing over $\frac{1}{2}$ per cent. of alcohol. With such a proportion, a fellow would have to get outside of a barrel and a half to get even a little tipay.

ONE would think that wireless telegraphy would be practically costless compared with that over strung wires on high priced poles. Not so, it seems, since a statement shows that the system was operated last year at a loss of \$47,000.

A DISPATCH says that Evelyn wants a divorce and half a million from Harry Thaw. She deserves it for saying his neck with the flimsy lie she told on Stanford White.

SINCE Senator McEnery, a so-called Southern democrat, voted right along with the Aldrich adherents, some real democrats are sore over the fact that Louisiana was ever purchased.

POLITICAL.

Gov. Willson has accepted an invitation to accompany President Taft on his trip down the Mississippi river.

The Georgia General Assembly adjourned sine die after a session remarkable for the number of freak bills introduced.

John F. Morgan, nestor of the Nicholas county bar, has announced for the democratic nomination for county judge to succeed the late Thomas Collier, who was named for that place in the Democratic primary held May 15.

The "stick and the shotgun," implements of the unwritten law, were figuratively abolished by the Georgia Legislature as the means of defense of a woman's fair name. The house passed the bill already adopted by the Senate making wilful defamiation of a woman a misdemeanor.

At a conference between representatives of the Society of Equity and the Burley Society at Winchester, propositions were made by the Burley Society which will end the controversy between the two organizations. The Burley Society agrees to pay the Equity Society \$1 a hogshead commission on tobacco pooled through local unions of the Equity Society; will pay over to each county money received for tobacco ten days after receipt, and will pay to the Equity Society \$10,000 out of the pool of 1900, half of which is to go to the State society.

IT doesn't speak well for Stanford that her people patronized so poorly such high-class entertainments as the Chautauqua gentlemen gave. Anderson's Comedians, the worst lot of "barnstormers" that ever came here, had packed houses as compared with those the Chautauqua people had. Is it possible that our people care nothing for the literary and elevating?

Mr. Addams reports that he is well pleased with his prospects, and many friends who remember him as Clerk of the Court of Appeals are interesting themselves in his race. Mr. Addams says he is in the race to stay, and he believes that he is sure to win. He will attend the Democratic barbecue.—Courier-Journal.

THE Chautauqua came to an end Tuesday night. Senator Regan, the entertainer for Monday and Tuesday, greatly pleased his hearers. His subject, "The Fool Taxpayer," put many of our people to thinking and many to ask themselves where all the money paid out for taxes goes. Senator Regan is not only a good talker but an expert cartoonist. The vocal quartette, which accompanies him, made splendid music. Rev. L. L. Pickett, who is managing these State-Wide Prohibition Chautauquas, was on hand Tuesday night and made an interesting and timely talk.

ASSASSINATED.—J. A. Engleman, operator for the Queen & Crescent at King's Mountain, was shot to death in the depot there about 2 o'clock yesterday morning. His mother and brother, Mr. Matt Engleman, of Mt. Salem, survive. He leaves his wife, to whom he was married in March last. She was Miss Haggard, a daughter of Mr. W. G. Haggard.

Work on the court-house is progressing satisfactorily and Contractors Krueger & Miller think they will have the big building completed by Winter.

THE sign writers thought they had barrels of fun Wednesday night when they soiled for the time a number of show windows in town. If the little cigarette puffers had something to do in the day they wouldn't indulge in such devilry when night comes and if the vagrancy law were enforced as it should be the trouble makers would be too tired to spend their nights in carousing and general cussedness.

TO THE FARMERS.—Having lost my barn by fire and being insured in the Home Insurance Co., of New York, represented by Jesse D. Wearen, the insurance man, Stanford, Ky., it is with pleasure that I recommend both the company and Jesse D. Wearen to the farmers and insuring public. Furthermore, last year during the night rider trouble in our State, the Home Insurance Co., of New York, was the company that stood by the farmers; they did not stop writing tobacco barns, nor did they cancel any. I was compelled to change my policy from another company to the Home in order to get insurance on my tobacco barns, so I feel that the farmers should give a company of this kind the preference in placing their farm property. Wilson Alexander, Stanford, Ky. Aug. 5, 1909. 2t.
